

Lab 12: Understanding & implementing 2D Reflection

Lab Date: January 24th, 2026

Deadline: January 30th, 2026

Class: CSIT 3rd Semester, New Summit College

Subject: Computer Graphics

Submission Mode: **Handwritten Document** (Print Output Section only)

Objective: Understanding & Implementing reflection along the x-axis

Tasks:

1. Understand the basics of reflection along X-axis and Y-axis
2. Write a Program for reflection along the x-axis and y-axis
3. Analyze the output and prepare a conclusion.

Report Format & Structure (Topics to include for submission):

- Theory:
 - a. Reflection along x-axis
 - b. Reflection along y-axis
- Program for reflection along the x-axis
- **Output (Reflection along x-axis)** (You need to include the **quadrant** in the output and label **Object** and **Image** clearly in the output image presented)
- Program for reflection along the y-axis
- **Output (Reflection along y-axis)** (You need to include the **quadrant** in the output and label **Object** and **Image** clearly in the output image presented)
- Conclusion
