

Lab 21: Understanding & Implementing Perspective Projection in 3D

Assignment Date: February 22nd, 2026

Deadline: March 12th, 2026

Class: CSIT 3rd Semester, New Summit College

Subject: Computer Graphics

Submission Mode: **Handwritten Document** (Print Output Section only)

Objective: Understanding & Implementing Perspective Projection in 3D

Tasks:

1. Understand the basics of the Perspective Projection in 3D
2. Write a Program for the Perspective Projection in 3D
3. Analyze the output and prepare a conclusion.

Report Format & Structure (Topics to include for submission):

- Index Page
- Theory:
 - a. Perspective Projection in 3D
 - b. Algorithm of Perspective Projection in 3D
- Program for Perspective Projection in 3D
- Implementation/Output(You need to label the **Object** and **Image** clearly in the output image presented. Clearly join the object and image vertex by dotted lines.)
- Conclusion
