

Lab 13: Implementing ACL in Packet Tracer

Assignment Date: August 7th, 2026

Deadline: August 17th, 2026

Class: BSc.CSIT 4th Semester, New Summit College

Subject: Computer Network

Objective: Understand the basics of ACL and implementation using Packet Tracer

Tasks:

- Implementing Access Control Lists (ACLs) using Packet Tracer

Report Format & Structure (Topics to include for submission):

- Theory
 - a. Access Control List (ACLs)
 - b. Network Diagram
- Implementation Sequence
 - a. Configuring PCs and Routers
 - i. Configure PCs
 - ii. Configure Router
 - b. Configuring Access List
 - i. Configure the DENY and PERMIT lists
 - c. Implementation
 - d. Addressing Table
- Conclusion
