

Lab 14: DNS and Web Server Configuration using Packet Tracer

Assignment Date: August 17th, 2026

Deadline: August 26th, 2026

Class: BSc.CSIT 4th Semester, New Summit College

Subject: Computer Network

Objective: Understand the basics of DNS and Web Server Configuration using Packet Tracer

Tasks:

1. Understand the concepts of DNS and Web Server.
2. Configure DNS Server, and Web Server and implement using Packet Tracer

Report Format & Structure (Topics to include for submission):

- Theory
 - a. DNS & Web Server
 - b. Network Diagram
- Implementation Sequence
 - a. Configuring DNS Server and Web Server
 - i. Configure DNS
 - ii. Configure Web Server
 - b. Web Server in DNS Server Configuration
 - c. Implementation
 - d. Addressing Table
- Conclusion
