

Lab 8: Creating a LAN and testing the connectivity using Packet Tracer

Assignment Date: July 19th, 2026

Deadline: July 27th, 2026

Class: BSc.CSIT 4th Semester, New Summit College

Subject: Computer Network

Objective: Understand the basics of LAN and its implementation in Cisco Packet Tracer.

Tasks:

1. Create a simple LAN Network
2. Configure the basics and Test the LAN

Report Format & Structure (Topics to include for submission):

- Theory
 - a. LAN & its Architecture
 - b. Component Used
 - c. Network Diagram
- Implementation Sequence **(Must include a connection between 2 nodes)**
- Conclusion
